

Potting Shed Team Events

Where ideas *grow*...
and *great teams* come together.

Unique games to motivate and inspire

We are team game specialists. Some of the games we have developed are outlined below but if you would like something just for you and your team then please do let us know ... we love coming up with new and creative ideas.

New games in development:

The Pharaoh's Legacy
Ancient Enigma
Write Your Own Board Game
Turn Coat

Puzzled?

Full of fun this PUZZLED? board will puzzle your teams as they work their way through the various challenges set by the PUZZLED? master. Challenges include physical, mental and creative and can be mixed and matched to suit your group, the location and the time you have.

Wellbeing Village

Explore our Wellbeing Village as a team by visiting the Hobby Gallery, the Mindful Café, the Local Store, Movement Corner, Sleep School and the local B&Bs. Each area will introduce the teams to an element of wellbeing that is practical and can be implemented back in the workplace. This game creates the space to learn and understand more about wellbeing.

Code Cracker

Our world is filled with codes, musical, natural, semaphore, morse and more. In this fast-paced game, teams are pitted against each other as they tackle a wide range of codes to unscramble the mystery and unlock the final code.

Virtual Voyage

This online game allows your team to play no matter where they are in the world. In this epic battle, Pirates and Privateers compete to unravel the clues on the map and be the first team to cross the finish line. A race around the world where teams will need all their ingenuity to solve the clues and trust their instincts to make the right allegiances.

Big Picture

Teams earn points by completing art themed challenges. From a blueprint teams draw out the picture, usually Picasso's Mediterranean Landscape, mix the correct colours and get painting. Teams will want to be competitive but have to collaborate if they are to match the correct scale and colours needed to perfect the finished painting, though the cubist style and beautiful colours will still look good even if the teams don't quite manage to match the lines and colours!

The finished artwork can be proudly displayed in your workplace as a visual reminder of the importance of working together as a team.

Block Buster

Make a Lego movie of your very own! Everything you need to make a fantastic short movie is provided, including but not limited to; iPads, tripods, lighting, microphone booms and, of course, copious amounts of Lego!

Once filming is complete the teams edit their movies using pre-installed apps, where they can zoom, cut, and add film effects such as black and white or speed settings. They can also choose from a bank of sound effects and music to create their soundtrack.

Hot Rods

To begin, teams complete a series of car themed challenges in order to earn materials. The teams are then given a Track Challenge to build, each incorporating a different stunt such as 'Dead Man's Curve', 'Loop da Loop da Loop' or 'Speedway'. Once each track is assembled, the teams practice their stunts and tweak their tracks to perfection, before joining up with the others for one big track extravaganza!

Creative Hot Wheels

A high-octane activity for speed freaks everywhere, teams are challenged to design and build a vehicle which will carry them to victory through a series of heats to the Grand Finale. This is about so much more than tyre types and race strategy: participants will need to call on their creativity, vision, sense of humour and communication skills to achieve success.

Excellent for team building and bonding, this activity can be fully customised to meet your brand requirements. We've had waste companies building dust carts, hotels on wheels and even international themes with the ubiquitous New York yellow taxi, gondolas and tuk-tuks competing for the coveted trophy.

Fast paced options to focus & engage

You have your team together so this is a great opportunity to take a break from the meeting room and just tackle something a little different. These events are designed to suit groups both large and small and work with indoor and outdoor space.

101 Challenges

101 challenges in 60 minutes ... what could be easier? Right? Well, these challenges look easy but with speed, concentration and team work required to stand a chance of completing them the teams get increasingly competitive as the minutes tick by. Which is the best all round team, and will they win?

Linking the Chain

Each team forms a critical part of the chain and if the chain breaks, then you will drop the ball. Sounds super simple but the links of the chain need to be created, the chain constantly flexes and turns and everyone needs to play their part to ensure that the group succeeds.

Pimp Your Name Badge

Using our wide range of crafts delegates are invited to decorate their name badges so that they say something about them – it can be work related, personal or just a bit of fun. Not only does this session offer a lot of fun it also helps with ongoing networking throughout the event and breaks the ice for teams that perhaps don't know each other so well.

Thinking Inside the Box

Can you create a visual representation of a theme? We have helped groups put their Vision & Values into the box, their USPs into the box and even their thoughts on next year's management plans. The options are endless, but this is a great game to cement ideas and encourage creativity and conversation around your business.

Workshops to educate & enjoy

Use your time to learn a new skill or hone an existing talent and take home something at the end of it. Our expert craft leaders will ensure that everyone completes the task and has something to be proud of at the end of the event

The workshops offer an escape from the meeting room and the time to relax and be creative. Choose from:

Pottery Throw Down

Painting

Candle Making

Terrarium Making

Bird & Bug Houses

Perfume Making

Willow Work

Chocolate Craft

Getting outside to refresh & recharge

Fresh air and exploring... this combination is great for all types of teams. Whether you are a competitive team or just want to have time to explore the area you are visiting for your event, these options offer a great variety of leg (and brain) stretches.

Treasure Trails

Cryptic clues, map references, photo mysteries and more are combined to make our bespoke paper-based trails. With each one written specific to your group, you can explore a local town on foot, a city using a variety of transport or even out into the country using hired transport. Whether on foot, bike, train or car the pace and clues will mean you need to work as a team to find the treasure first!

Estate Escapes

You are having your event in a beautiful location, you have spent most of your days inside the conference and meeting rooms and you want to give your group the chance to get out and explore the wonderful grounds. Our escapes are really a 'walk with purpose' and work well for groups or individuals. They are sure to spot a few unexpected surprises during their exploration.

Culinary activities to indulge & create

Enjoying food and drink shared with your team is one of the most sociable activities on offer. As humans we have been creating and sharing sustenance since time began and it allows even the most diverse group to meet on common ground. We can offer options for all tastes and requirements including dietary restrictions and religious exclusions.

Cake & Cocktails

Working with a theme each team needs to design and create a 'showstopper' cake from our table of goodies (no baking required) and match it with a cocktail. With a baker and mixologist on hand to guide them in the right direction, the results always surprise and delight.

Cocktail Masterclass

With more and more people enjoying the resurgence of cocktails, this masterclass will teach you how to astound your friends and family at your next gathering. Tips, tricks and expert hints to create beautiful and delicious drinks.

Chocolate Challenge

Did you know that there are officially four kinds of chocolate? Most people can get the first three (white, milk and dark) but the fourth is a newly discovered pink chocolate. Our chocolatiers know all about this and more including how to really taste chocolate and what flavour profiles blend well. Have a wonderful time making your own box of chocolates and decorating it to take home. What a treat!

Wine Challenge

Do you know your new world from your old? Can you spot the odd one out among our sparkling options? Whether a wine connoisseur or a complete novice, you are guaranteed to learn something new in our challenge. We include a few twists and turns to keep everyone guessing but it is always a lot of fun.
